

Dropbox folders keep your files organized across devices

Spend less time searching for the file you need by setting up folders.

Get Started

Store photos and videos from special events

Save all your memories from special occasions in a dedicated Dropbox folder for easy access

Backup projects in dedicated folders

Stay organized by creating folders for each of your projects, and never misplace an important file again.

Share your folders

Whether you're sharing vacation photos with the grandparents, or project files with a colleague, Dropbox lets you easily & securely share folders with others.
